

ChIP-seq Mark vs Loop Distance Analysis

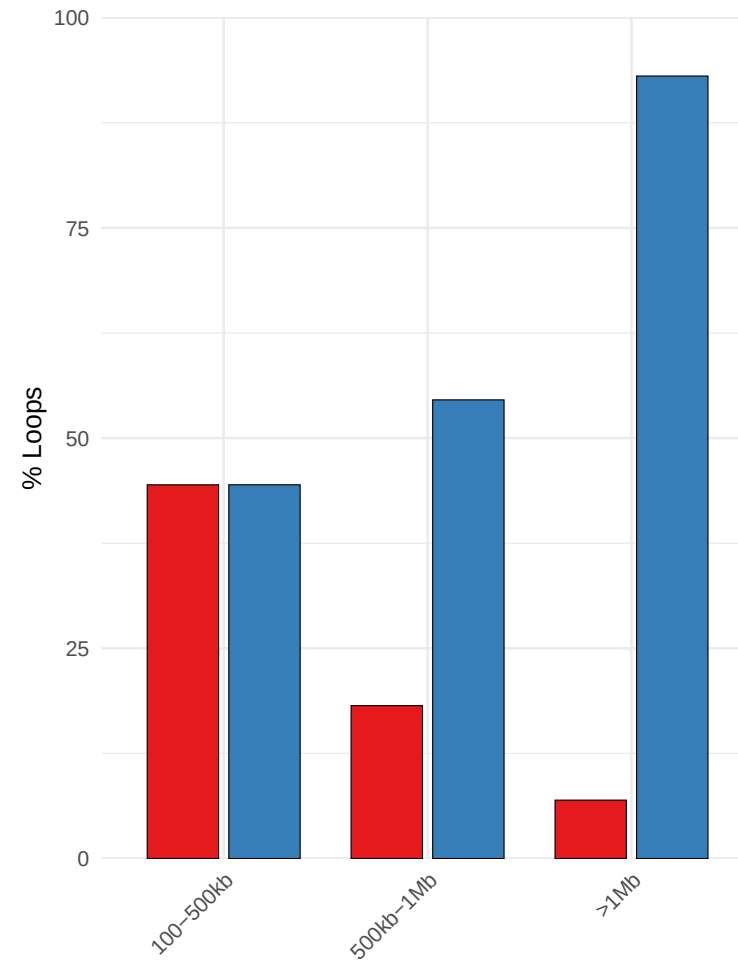

EARLY timepoint: Testing H3K27ac/H3K27me3 distance relationship

A. Mark Trend by Distance

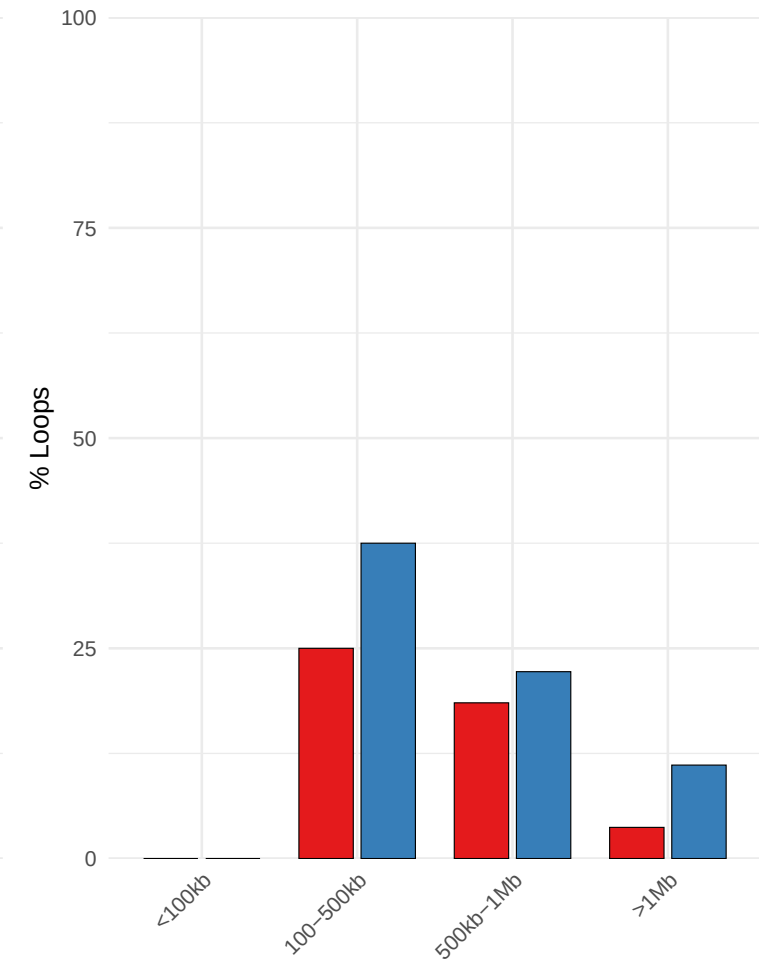

H3K27ac H3K27me3

B. Lost Loops

C. Gained Loops

D. Statistics

H3K27ac: beta = -3.43×10^{-8}

p = 1.42×10^{-1}

H3K27me3: beta = 4.60×10^{-8}

p = 1.35×10^{-3}

Results:

H3K27ac DECREASES with distance

H3K27me3 INCREASES with distance
