

## A Adult MeCP2 binding (CUT&RUN)

## B MeCP2 gains land at distal sites

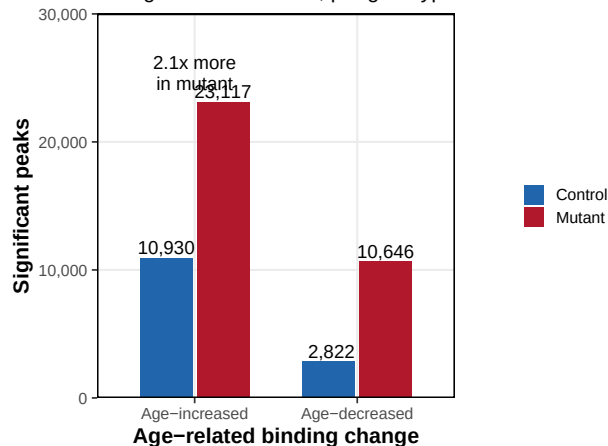

## C Hyper DMRs overlap MeCP2 gains

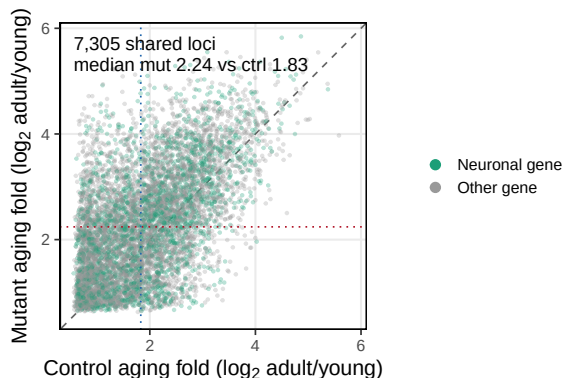

## D Developmental MeCP2 ramp is amplified

Young  $\rightarrow$  adult DiffBind, per genotype

## E Mutant ages higher at shared loci

## F Mut-unique aging genes are coordinated DMRs

1,282 mut-unique aging genes x 6,069 coordinated genes
